

DNA/RNA Shield Lysis & Collection Tubes

Cat no(s): R1102, R1103, R1104, R1105

All biological samples stabilized in DNA/RNA Shield™ are:

- (a) compatible with most workflows (e.g., Qiagen, Roche, Thermo-Fisher).
- (b) a direct input for high-throughput processing (e.g., Hamilton, Tecan, bioMérieux, PerkinElmer, Eppendorf, Promega, Opentrons).
