

DNA/RNA Shield Blood Collection Tube

Cat no: R1150

All biological samples stabilized in DNA/RNA Shield™ are:

- (a) compatible with most workflows (e.g., Qiagen, Roche, Thermo-Fisher).
- (b) a direct input for high-throughput processing (e.g., Hamilton, Tecan, bioMérieux, PerkinElmer, Eppendorf, Promega, Opentrons).

Recommended Purification kits

DNA/RNA	Quick-DNA/RNA Blood Tube Kit (for processing full blood tubes) R1151
DNA	Quick-DNA Miniprep Plus Kit D4068
RNA	Quick-RNA Whole Blood Kit R1201
