

Easy & Fast Protein Purification from Crude Lysates

Strep-Spin™ Protein Miniprep Kit

- **Fast & Simple:** Purify Strep-tagged proteins from cell-free extracts using a spin-column in ≥ 5 minutes.
- **Easy Identification:** Screen recombinant colonies directly for protein products rather than plasmid inserts.
- **High-Quality:** Purified proteins are ready for sensitive assays to study enzyme kinetics, biochemical analyses, SDS-PAGE, etc.

The Strep-Spin™ Protein Miniprep Kit purifies high-quality Strep-tagged proteins directly from a spin-column. C-terminal Twin-Strep-tag fusion proteins expressed in *E. coli* and purified using the Strep-Spin™ Protein Miniprep Kit were analyzed by SDS-PAGE on a 15% gel, and stained with Coomassie Blue. (GFP 28 kD, Calmodulin 19,8 kD, BDV-P 25,5 kD)

Fast & Simple
